

Ralston
Metal Products Limited

**You create the need.
We customize the solution.**

Modified Stock

Modification Services:

No range of enclosure, however wide and flexible, can cater to every conceivable requirement without some change.

Not all occasions call for the need of a custom made product. Keeping this in mind, we have geared our facilities for the modification of off-the-shelf stock items.

Typical Modifications Include:

Holes, Cutouts, Knockouts, Louvers, Windows, Mounting plate punching and tapping, Custom painting, and Hardware changes.

Why Leave Modification To Us?

- Relieve yourself from the cost of human error.
- Time savings: allow immediate installation of equipment.
- Cost savings: we have the proper equipment to do the job quickly.
- Painted edges on all cutouts eliminating corrosion.
- The assurance of high quality work.
