

ETB Terminal Box

Water and Dust Tight Terminal Enclosure

Application:

Ralston's ETB series enclosures are designed to provide protection indoors and outdoors, against dust, dirt, oil, and water for items such as: electronic and electrical controls, and pneumatic components.

Construction:

All ETB enclosures are made from 1.5mm mild steel. All seams are continuously welded and ground to a smooth finish. The ETB comes complete with body and cover grounding studs, as well as provisions for mounting optional galvanized interior mounting plates and DIN rail. The removable cover is held secure with four through door screws. The cover is sealed with an injected one-piece polyurethane gasket.

Paint Finish:

The ETB is finished inside and out with RAL7035 light grey powder coating. The optional interior mounting plate is galvanized.

Standards:

The ETB is built to the requirements of IP66, NEMA Type 12 for industrial use, 13 for oil and dust tight and 4, for water tight.

The ETB is CE, UL and cUL (for Canada).
